Mr. Charles Moquin  
Permanent Paint Preservation  
2356 Sweet Briar Lane  
Rock Hill, SC 29732

Dear Charles,

I want to thank you for the lasting results of the PPS technology on my BMW Z4. When you first personally contacted me in a parking lot, I was a little skeptical. However, your information included your web site. When I reviewed the information, I was impressed because I needed protection for the Z since I do not have the luxury of a garage. Also, I did not want to use a cover that needed to be taken off and put back on daily. So I decided I would take a chance with PPS.

Well, it has been 4 years and I could not be happier. After the initial treatment, all I had to do to clean the car was a simple water rinse and a soft cloth wipe down. This included not only road dirt but also the sap from the trees where I park the car in my driveway. It stays looking like new. However, I was concerned about what would happen in following years. At your suggestion, I have had you do the annual treatment at a very reasonable cost. And like magic, the car maintains it's new quality and continues requiring me to only clean it with a simple water wash, soft cloth wipe, and rinse.

Thank you and PPS for keeping my life simple and my Z4 looking like new.
