Dear Charles,

Yesterday, for the first time since you worked on my 1987 Piper airplane I was able to get to the airport to check the job you did. There is no way I could be more pleased. Your work and the results are excellent.

When you contacted me eighteen months ago to allow you to use PPS following prepping of its old faded and oxidized finished waxed annually, to make its finish look as new as possible, I must admit it sounded too good to be true. Although I usually don't respond positively to solicitations, your sincere and honest demeanor enticed me to give you a chance. I must say, I'm extremely happy that I did so. I can honestly state that this Piper airplane finish is the best looking and durable shine I have ever had on any airplane I ever owned.

Feel free to use this letter as you wish and if you would like to have someone contact me you have my permission to do so.

Best wishes and continued success with your remarkable product.

Sincerely,

Martin Bodner
